

Perinthalmanna – The Pulse of Malappuram

Nestled in the heart of Malappuram, Perinthalmanna is more than just a town — it's Kerala's healthcare capital, a fast-growing hub of urban living, and a place where tradition meets modern development.

The Hospital City of Kerala

Perinthalmanna proudly holds the title of “The Hospital City”, renowned for its exceptional healthcare infrastructure. With over 10+ multispeciality hospitals and hundreds of clinics and labs, this city attracts patients and healthcare professionals from across the state and abroad, ensuring 24/7 medical accessibility and services.

Population & NRI Influence

Home to over 50,000+ residents and serving as a major urban center for surrounding towns, Perinthalmanna is a bustling, cosmopolitan town. A significant portion of its families have members working in the Middle East and other foreign countries, bringing in over ₹35,203 crore in annual NRI remittances. This inflow has powered local infrastructure, retail, and real estate developments, giving the city a unique edge in Kerala's urban map.

A City of Growth & Promise

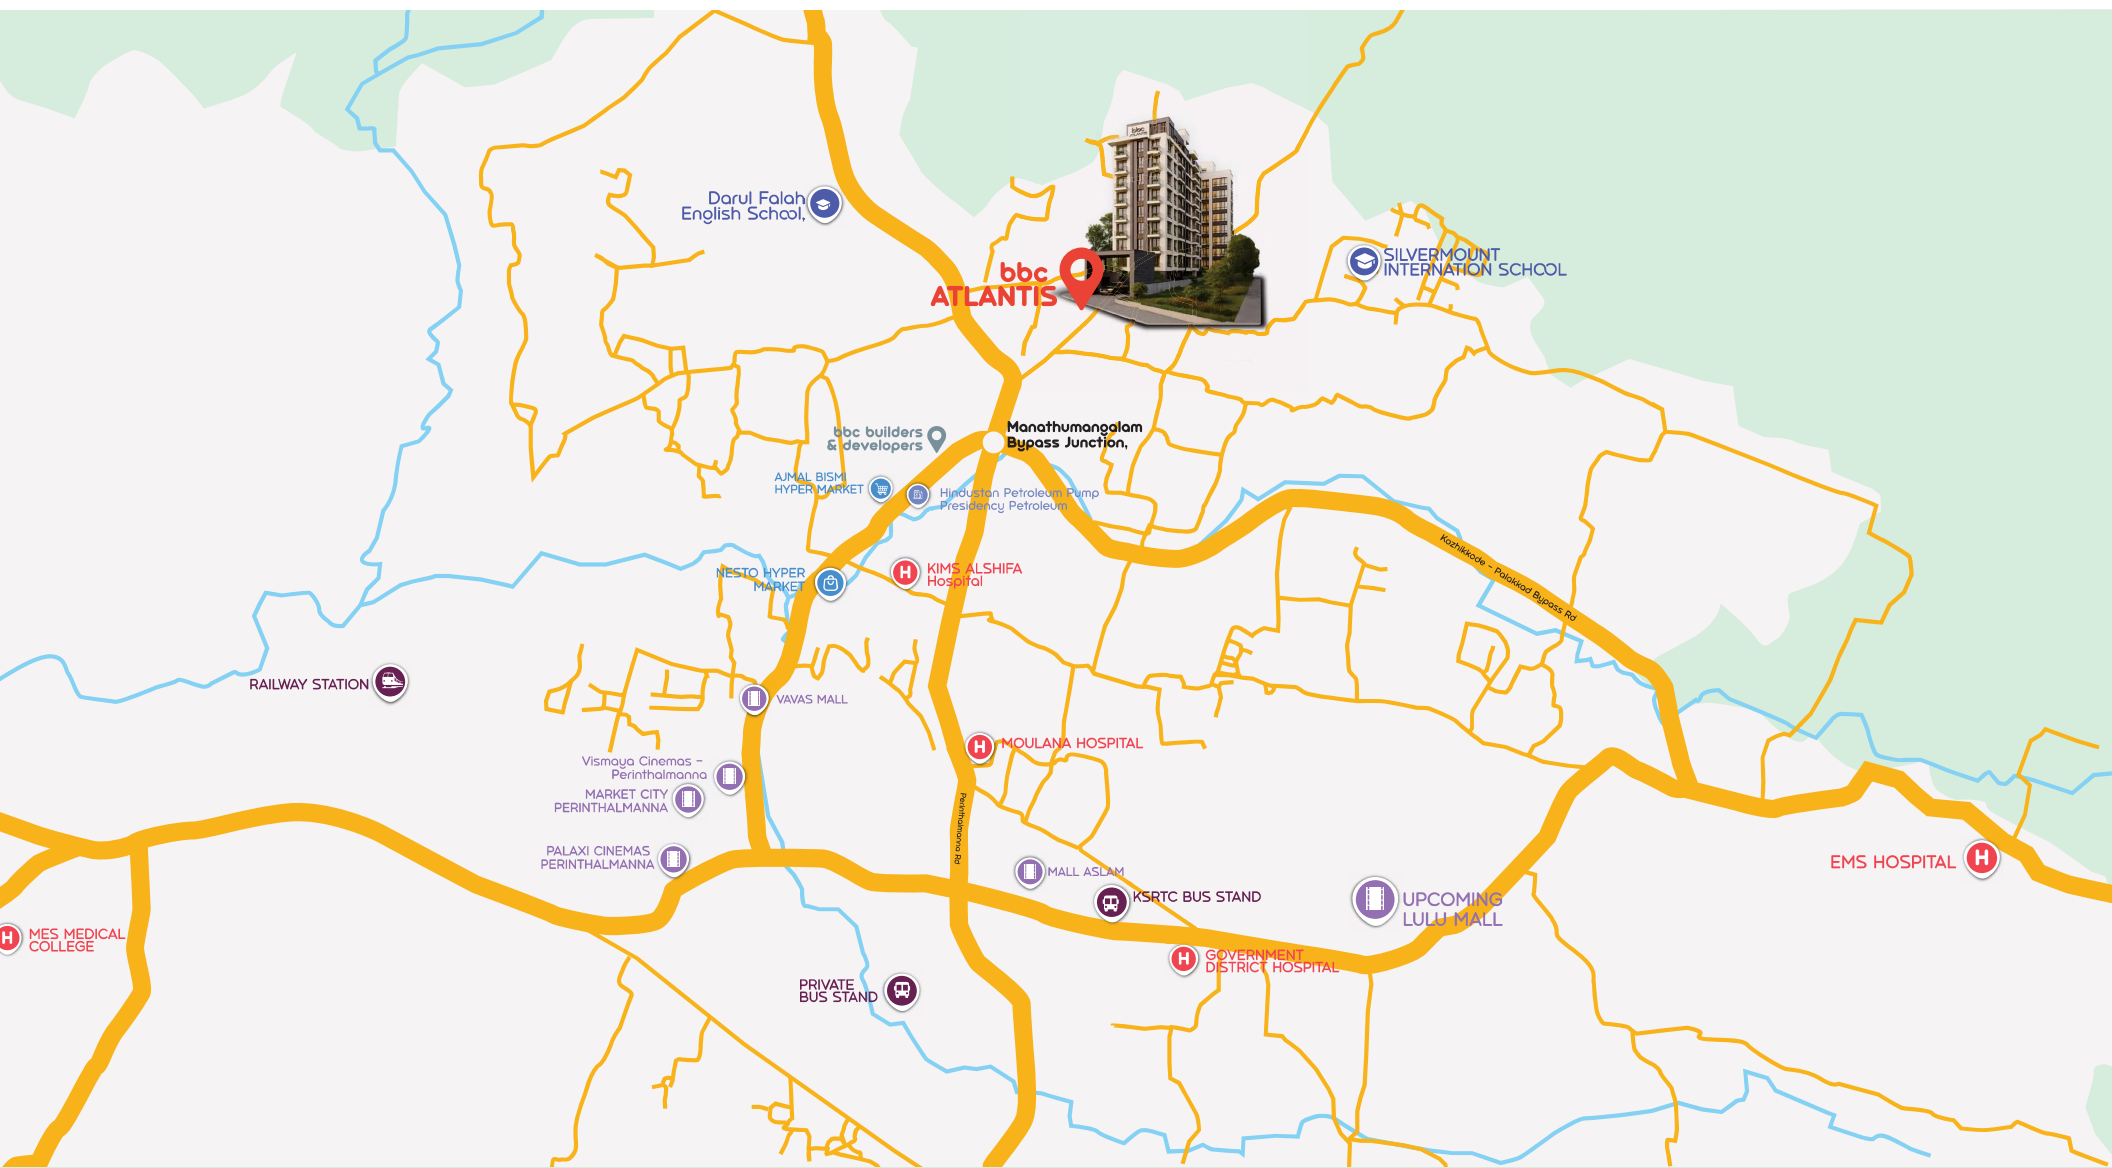

From healthcare to education, IT hubs to luxury housing, Perinthalmanna is on a fast track to becoming one of Kerala's most promising Tier-II cities. With improved connectivity, rising investments, and an ever-growing educated population, the city promises great returns for investors, comfort for homeowners, and opportunity for businesses.

A Global Growth Story

In a 2020 survey by the Economist Intelligence Unit (EIU), Malappuram was ranked as the second fastest-growing urban agglomeration in the world, with a 44.1% population increase between 2015 and 2020.

Perinthalmanna, being a significant contributor to Malappuram's economy and urban development, plays a pivotal role in this growth narrative.
